

2020 Subject Index

A	
Abdomen	16
Acute	16
Acute abdomen	6
Acute kidney injury	1
Acute medicinal poisoning	10
Acute stroke	154
Acute urinary retention	52
Admission time	172
Adropin	159
Airway	55
Albumin	178
Ambulance	78
Ambulance driving	78
Analgesic	219
Angioedema	213
Antibiotic	142
Aortic diameter	82
APACHE-II	98
Appendicitis	16, 52, 178
Atherothrombosis	159
Attempts	111
Axial imaging	232
B	
Basic life support	46, 226
Behaviors	78
Breast artery calcification	136
C	
C-reactive protein	178
Carbon monoxide	30
Cardiac index	63
Cardiopulmonary resuscitation	185, 226
Cardiopulmonary resuscitation simulation	46
Cardiopulmonary resuscitation training	46
Cardiotrophin-1	71
Cardiovascular disease	136
Chest compression	185
Chest injury	20
Chest X-ray	20
Child	25
Children	115, 166
Chronic viral diseases	105
Closed reduction	25
Coagulation	186
Complement 1 inhibitor	213
Complicated appendicitis	6, 178
Coronal sagittal reformat imaging	232
Coronary artery calcium score	136
Costs	121
COVID-19	185, 240
Crises	240
Critical patient	98
CRP	98
CRP/albumin ratio	178
D	
Demography	111
Dentistry	226
Diagnosis	71
Dimethyl sulfoxide	30
Drug applications	191
Duty	203
E	
Emergency	63, 240
Emergency department	89, 111, 115, 121, 142, 172, 186, 210, 213, 219
Emergency medicine	105, 203
Endothelial function	159
Endotracheal intubation	185
Epidemiology	10
Ethyl pyruvate	30
Experimental	30
F	
Flynn criteria	25
Fracture	166
Frequent users	89
G	
Geriatric	197
H	
Haemodynamic management	55
HBV	105
HCV	105
Health knowledge	94
Health literacy	94
HIV	105
Humerus supracondylar fracture	25
Hypertension	40
I	
Immobilisation	55

2020 Subject Index

Inferior vena cava diameter	82	Procalcitonin	98
Injury severity score	20	Procalcitonin/albumin ratio	98
Intervention skills	191	Prognosis	71
Intoxication	30	Protocol	142
Intracranial pressure	40	Public health	191
Intraosseous access	185	Pulmonary embolism	82, 159
K		Pulmonary oedema	63
Ketamine	219	R	
Kirschner wire	25	Repeat abdominal examination	52
Knowledge level	191	Return visit	115
L		Reversed Robin Hood syndrome	236
Laboratory parameters	6	Risk factors	111
Lactate	98	S	
Low-dose intravenous ketamine bolus	166	Safety	185
M		SARS CoV-2	185, 240
Magnetic resonance	16	Screening	136
Mammography	136	Seizure	127
Mechanical thrombectomy	154	Sepsis	142
Medical education	149	Septic shock	172
Medical emergencies	226	Severity	71
Meta-analysis	127	SOFA	98
Morphine	219	Spinal cord injury	55
Mortality	172, 197	Stroke	236
Multiple trauma	219	Stroke index	63
Multiple trauma patients	20	Suicide	111
N		Symptomatic treatment	210
National Early Warning Score	142	Systematic review	127
Novel corona virus	240	T	
O		Thoracic fluid content	63
Occasional users	89	Thrombolytic therapy	154
Occupational accidents	121	Tramadol	127
Operators	78	Transthoracic impedance	63
Optic nerve sheath diameter	40	Trauma	232
Overdose	127	U	
P		Ultrasonography	40, 149
Pain	16, 219	Upper gastrointestinal bleeding	197
Paramedic	191	Upper respiratory tract infection	210
Patient education	94	Urticaria	213
Personal protective equipment	185	Utilization	186
Piperacillin-tazobactam	1	V	
Point-of-care testing	149	Vancomycin	1
Poisoning center	10	Vertebral fracture	232
Practice-social life	203	Vertigo	236
